

RATIO RULES

Enrollment ratios exist to divide registration spaces among College and Graduate students. Although they are **required** for cross-listed undergraduate/graduate courses only, ratios can be added to non cross-listed courses by indicating the desired ratio on the Time Schedules course offering list that is submitted to the Registrar each quarter.

Ratios should be entered as a percentage (%); not an actual number of students. Use the list below as guidance when entering an undergraduate (U) to graduate (G) ratio. If no ratio is supplied for a cross-listed undergraduate/graduate course, a 50U/50G will be applied as the default.

95U/5G
90U/10G
85U/15G
80U/20G
70U/30G
65U/35G
60U/40G
55U/45G
45U/55G
40U/60G
35U/65G
30U/70G
25U/75G
20U/80G
15U/85G
10U/90G
5U/95G
